ABOUT ME

I am a Higher Technician degree in Web Application Development, currently searching my first professional opportunity to apply my skills and grow within the tech industry. I consider myself a responsible and proactive individual, eager to take on new challenges and continuously improve.

SKILLS

- **Server-Side Web Development:** Experience with technologies such as Python and PHP, including frameworks like Flask and Laravel.
- **Client-Side Web Development:** Proficient in JavaScript and TypeScript, with hands-on experience using React and Vue.
- **Web Design & Layout:** Projects developed using Figma for UI mockups, and Bootstrap or Tailwind CSS for responsive design implementation.
- **Software Architecture:** Understanding and application of Hexagonal Architecture (Ports and Adapters pattern).

EXPERIENCE

WEB DEVELOPER

Infiniton

March – June 2025

- Worked with various technologies and both back-end and front-end contexts using Laravel and Vue.
- Utilized different programming languages and development tools appropriate to each project.
- Developed back-end projects following Hexagonal Architecture.
- Automated tasks using Python.

EDUCATION

IES virgen del carmen

Web Development

2023 - 2025

Docker Course

OpenWebinars

May 2025

- Learned about Docker networks and volumes.
- Experience with Docker Compose for container orchestration.
- Created Docker images for application development and deployment.
